Last Saturday Mr. Munson entered a suit in Chicago against George W. Little, his wife, and two sons, in the sum of \$25,000 for the false imprisonment of his daughter.

Miss Munson was engaged to be married to George W. Little, jr., but the engage-ment was broken off on March 7. They were both employed in the wholesale mil-linery house of D. B. Fisk & Co. of Chicago. Miss Munson, while alone and unprotected, was forcibly abducted by Little and his brother Albert and carried to their parents' home.

The Littles claimed that the girl was in-

sane, and, finding her alone and violent, they thought it better to take her to their parents' house where she could be cared

for,

The father of Miss Munson, however, deems the whole affair a malicious outrage concocted by the Littles to injure the reputation of his daughter and declares his purpose to have the parties concerned punished.

#### WITH BAT AND BALL.

THE CHAMPIONSHIP SEASON OPENS IN THIS CITY TO-DAY,

Boston Will be the Opponents of Trott's Aggregation-A Resume of the Situation-llow the Association Stands in Its Brenkaway from the National Agreement-Prospects for a Prosperour Season.

The baseball season is at last well under way, that is so far, as the American Association is concerned. It opened last Wednesday, and the attendance in the different cities indicated that the Association lost nothing by breaking away from the national agreement. It starts its career as an independent organization under highly auspicous circumstances that give promise of an exceptionally prosperous season. There is no reason why t should not prove one. Baseball is as much of a business as any mercantile one. and in trade an off year is usually folowed by a busy one. Why should not

the same rule follow the sport? Last season the cut-throat policy of the Players' League involved the game well night inextricably in disaster, and although more people witnessed the games than any previous season, yet both parties to the fight lost and lost heavily.

This season there is no war, for the action of the Association in withdrawing from the national agreement cannot be

from the national agreement cannot be construed as a light between the organiza-tions. The Association simply exercised its right to sever a partnership which it thought was of no possible benefit to it. Whether it acted wisely or not time alone will tall

Whether it acted wisely or not time alone will tell.

Then, again, except in three cities, there will be no conflict between the rival organizations, as there was last year, when the National League and Players' League each had representatives in seven of the eight cities in their circuits, and, in addition, a conflicting schedule. Philadelphia has always had two clubs, so it can practically be eliminated from the consideration of how far it will figure in the case. Boston will this year have its first season of Association ball, and, it is fair to presume, will receive equal patronage with the Leaguers. Cincinnati will be the only real lighting ground, and it must be confessed the League has the advantage. Its grounds are nearer the city, and it has a large constituency in the village of pork and culture. To less this to the Association the League team will have to put up a very inferior game, worse than any one familiar with the personnel of the team believes it capable of doing.

In short, the circumstances point to a good season pecuniarily, and every loyer of the game will cheerfully say 'good enough,' and contribute of his substance to bring about the result.

to bring about the result.

THE HOME CLUB.

The Washington Club has been batting on foreign grounds since Wednesday, and has demonstrated that Manager Trott has got together a more skillful set of men than have represented this city for a long time. The boys took Wednesday's game right handily, batting like Trojans and batting together, something our recent teams have been sadly deficient in. It was a pleasure to take Wednesday's score and read down the base-hit column. Every man but one got his little single, and some of them more than one. Then and some of them more than one. Then Carsey's pitching was another pleasant surprise. It demonstrated that we have ome excellent twirling material, and, gether with good batting, ought to tave a say as to where the championship

shall go.

Thursday's game, the men who follow
the banner of Wagner, turned the tables
on us. Keefe puzzled them for six innings, and then the same thing happened to him that has happened so often before. He always had one inning in which his curves were pie to the opposing batters, and on Thursday the seventh was

the fatal one. However, we start even in the second week of the race for the pennant, and may yet worry the leaders, and such is the

hope of every lover of the game and friend of the team.

The local team will open the season in this city to day in one of the prettiest and most eligibly located ball parks in the country. When you think of consuming from three quarters of an hour to double that the investment of the local can be a season. that time in reaching a ball park, as is the case in many cities, and the same time in returning to your home, one feels like hailing the enterprising gentlemen who have this club in charge as baseball bene-factors. It is only ten munutes from Sev-enth street and Pennsylvania avenue, and when the Pennsylvania avenue cable is completed, one can go to the park from any part of the city inside of half an hour. Surely the baseball crank of the National Capital has much to be thankful for that

Capital has much to be thankful for that lie does not always appreciate.

The stand is a handsome, well-built structure that reflects great credit on the builder, Mr. James M. Dunn. A description of it has previously been published. As for the bleachers they are the best of any grounds in the country, bar none. As for the grounds themselves, they are larger than any this city ever possessed and none of the heavy hitters are likely to fatten their batting average by home run hits over a short hitters are likely to fatten their batting average by home run hits over a short tield fence. The man who makes a home run on the grounds will have to do it in some other way than putting the ball over the fence, for the simple reason the latter is too far from the plate.

In to-day's game Carsey and McGuire will occupy the points for the local team, and Haddock and Farrel will do the honors for the Bean-caters.

Bad weather prevented the Association games in the East on Saturday, but the Western clubs played and St. Louis defeated Cincinnati 13 to 5. Columbus, however, reversed the defeat of Thursday and scored a victory over the champions, 7 to

#### PEFFER ON TEMPERANCE.

The New Senator from Kansas Tells What His State Has Done. Senator Peffer addressed yesterday nass meeting held under the auspices of Perseverance Lodge of Good Templars at Calvary Baptist Church. He spoke on the liquor traffic.

"You are not far enough along here in the City of Washington to take the step we have taken in Kansas. But you are far enough along to help the work. We are fast getting men into public life who are not only temperance men, but are not ashamed to say so. And the women—God bless them—are helping us. If this question was left to the women alone it would soon be settled.

"Boys, don't touch liquor, and especially don't go into drinking places. The babit takes away your substance, your living, and, finally, will take away your brains. Don't touch it.

"During 1890 there were 25,000,000 bar-

brains. Don't touch it.

"During 1800 there were 25,000,000 barrels of fermented liquors manufactured
in this country, and on October 1 there
were 86,000,000 gallons of distilled spirits
in bonded warehouses and 16,190,000 gallons in the places of wholesale dealers.
Suppose we put this in a canal twenty feet
wide and ten feet deep; the canal would
have to be fifteen miles long. Let us
make a lake of it a mile square and
thirty-two feet deep. What is all that
llouor for? Out in Kansas we have come thirty-two feet deep. What is all that liquor for? Out in Kansas we have come to the conclusion that liquor has no use in the world; that places for open drink-ing are nuisances and dens of iniquity. Liquor controls elections, debauches the ballot, bereaves families, and destroys homes."

George W. Bailey presided at the meeting and also made an address.

"It is to be hoped that the Commission ers will impress upon the minds of the railroad officials the advisability of light railroad officials the advisability of light-ing up the crossings here in the Southwest with electric lights," said a wide-awake and progressive South Washingtonian to-day, "The Curric, I believe, called attention to the matter some time since, and it has long been observed that the gas lamps do not give the necessary light, being too far distant from the tracks. Life and limb distant from the tracks. Life and limb are in constant danger under the present condition of things. It is true that the Commissioners have no authority to furnish electric lights at present, but they could make gas serve the purpose through the use of some of the powerful burners which have been invented recently as one of the results of competition between gas and electric light companies. In the meantime it would be well for the railroads on their own hook to consider that between law suits and safeguards the lesser item of expense is on the safer side."

#### EAST WASHINGTON.

The funeral of Ralph, the youngest son of Mrs. Jacob Childs, took place from the residence of his mother, 824 East Capitol

The funeral of Miss Kate A. Tuoby, no the funeral of Miss Kate A. Puony, no-tice of whose death appeared in Tur-Curric of Saturday afternoon, took place from St. Peter's Church yesterday and was largely attended by the many friends of deceased.

Miss Tuohy's illness was a peculiar one, the was a member of the choir of St. (heresa's (Anacostia) Church, and on easter Sunday contracted the grip, from which she apparently recovered a week ago. Her coming out too soon caused her to catch cold, and this was the direct cause it her demise. She was 29 years of age

of her demise. She was 29 years of age and was the possessor of a voice of unusual softness, which could be distinctly heard above the others, blending in the most perfect harmony with the others of Professor Davis' choir.

The funeral of Mrs. Rebecca Gordon, one of the oldest residents of this section, took place from her late residence, 922 M street southeast, yesterday afternoon, and was largely attended. At the time of her death Mrs. Gordon was in her 78th year, and was the widow of the late James A. Gordon.

ANACOSTIA.

Officer Andrew Tilling, who has been langerously Ili since the second day of ast. September, is gaining strength Rev. E. Richardson is improving slowly.

Among the sufferers from the grip recently reported are Mrs. C. R. Bun, James T. Harrison, Mr. James H. Dony and Mr. George Shoemaker, sr. In the liquor case of Walker Webb Offi-cers Anderson and Branson of the Ana-costia police had five witnesses in Judge Kimball's court Saturday. The Govern-ment lost its case, but cautioned the offi-cers to keep their eye on the defendant. Albert Beechim, arrested by the same officers, charged with keeping an unlicensed bar, demanded a jury trial and the case went over until to-day, after the defen-dant had given bonds in the sum of \$200 for his appearance in Judge Miller's court.

The Rev. Mr. Baldwin occupied the pul-pit in the Jackson street M. E. Church last night in the place of Rev. E. Richard-son, whose illness is mentioned above. Miss Ella E. Wausteben, daughter of Professor W. A. Wausteben, C. E., has accepted the invitation of her grand-mother in Germany to spend a season on the banks of the majestic Rhine. She de-parts for Bremen via Baltimore on the good ship Herman on the 29th inst. John Barnes is the owner of about twenty canines, who make things interesting for persons passing his house. A gentleman from up-town, who was strolling down the railroad track in the vicinity of Barnes' house, was seized from behind by a savage brute, who ripped his coat up the back and removed the bosom of his pants. The gentleman swore out a warrant for the arrest of Barnes, and Officer Anderson served it this morning.

The ways of Sam Small's life are troub lous ones just now. Sam is an old news paper man of some distinction who, sev eral years ago, turned his thoughts to the work of redeeming shners. He accepted the presidency of a sectarian university in Ogden, Utah, and now the telegraph wires carry the story that those in authority demand an accounting of his stewardship. It is to be hoped that Mr. Small will score a "beat on his contemporaries.

#### PATHER IGNATIUS. He Did Not Refer to a Washington

Church. Editor Critic: The Rev. Pather Ignation has had a paragraph sent him from your paper of the 6th inst., from which it ap pears that some words of his have give pain to people in Washington, Your quo pain to people in Washington. Your quotation, "He related that a literary woman in Washington had left her church in disgust because the ablest worker in it was known to be a ringleader of the worst dens of vice," convey an entirely wrong Impression. The lady alluded to was in Washington at the time of the mission, though she does not live there; and the church she spoke of was not a Washington church at all, but one in a well-known town in New York State. The reverend father would be glad to give the name of the church and the lady had he permission to do so, as he thinks it is high time such goings on were made public and put ach goings on were made public and pu
